Madison Neighborhood Indicators, 2016 Edition

Allis Plan District

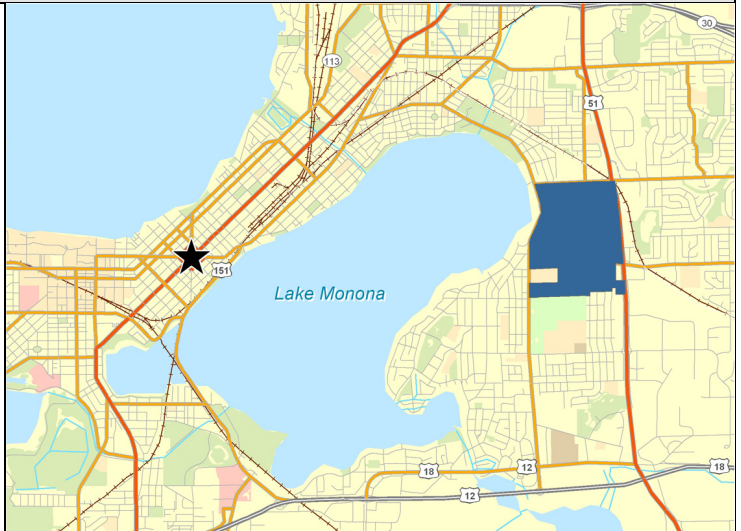

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 457 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Arbor-McKee Plan District

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 484 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Blackhawk Plan District

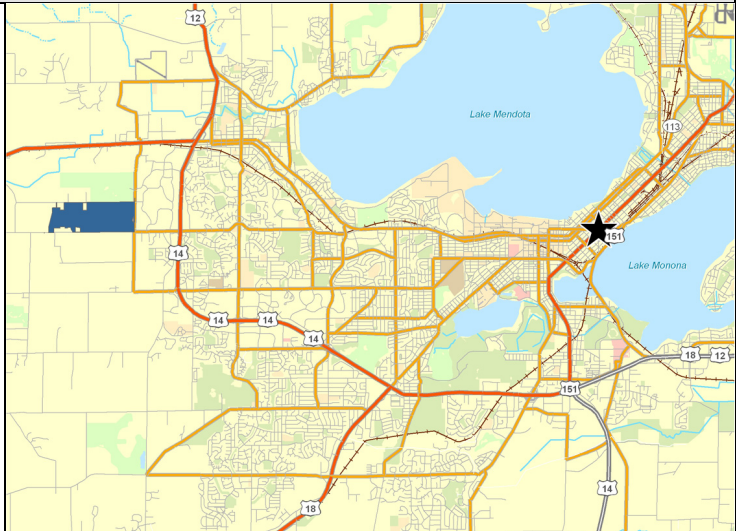

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 411 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Burr Oaks Plan District

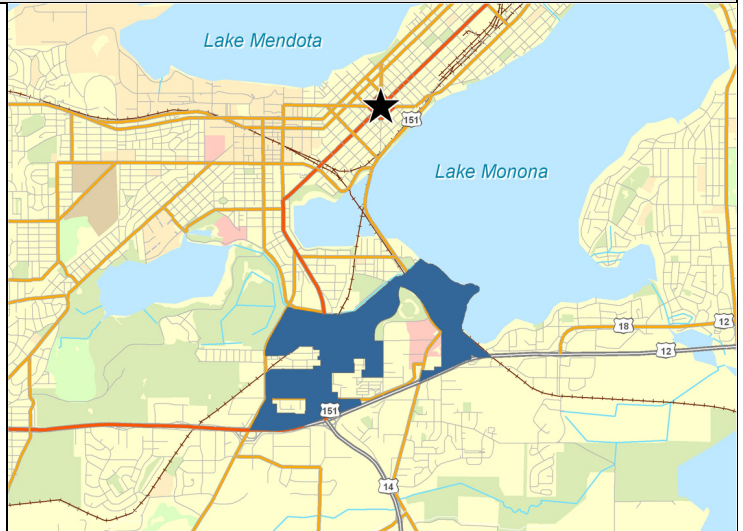

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 675 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Capitol Square Plan District

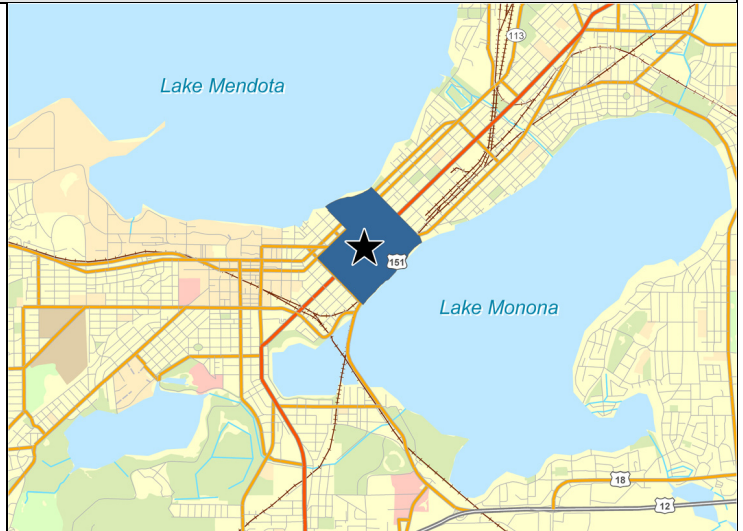

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 277 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. Cottage Grove Plan District

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 1,165 Acres

Boundary change from previous year: Yes

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Crestwood Plan District

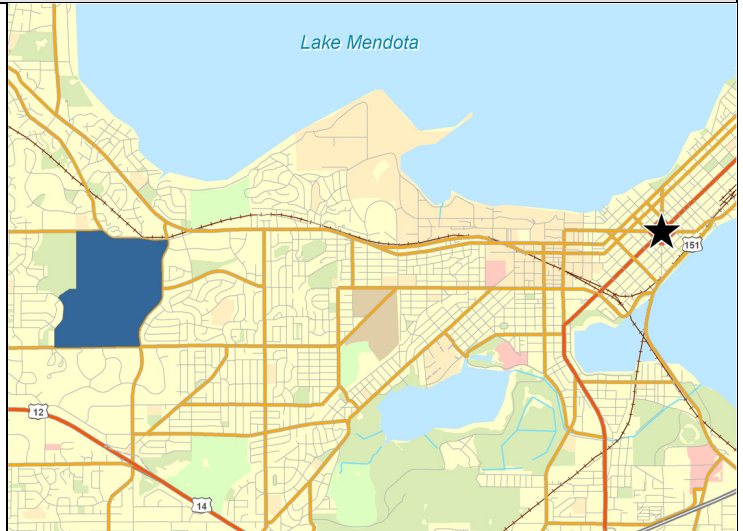

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 452 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Eagle Heights Plan District

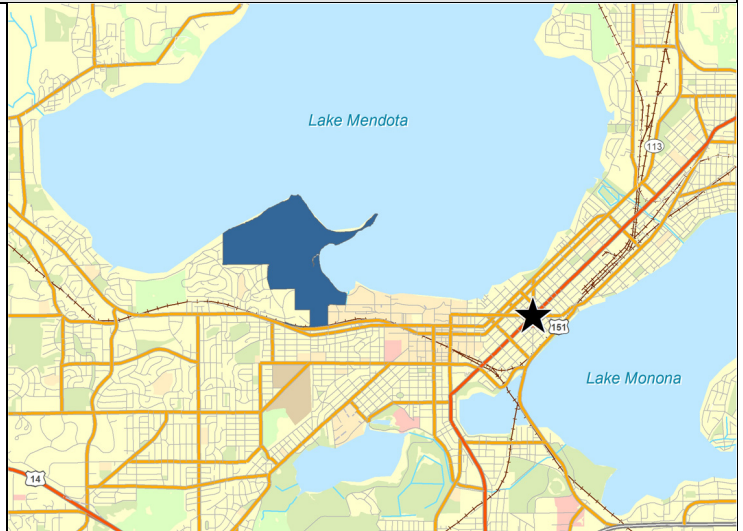

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 523 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Elderberry Plan District

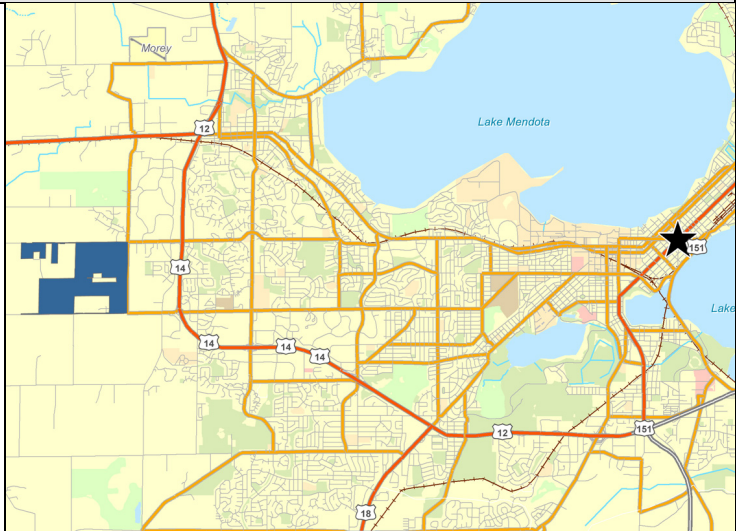

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 639 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Gammon Plan District

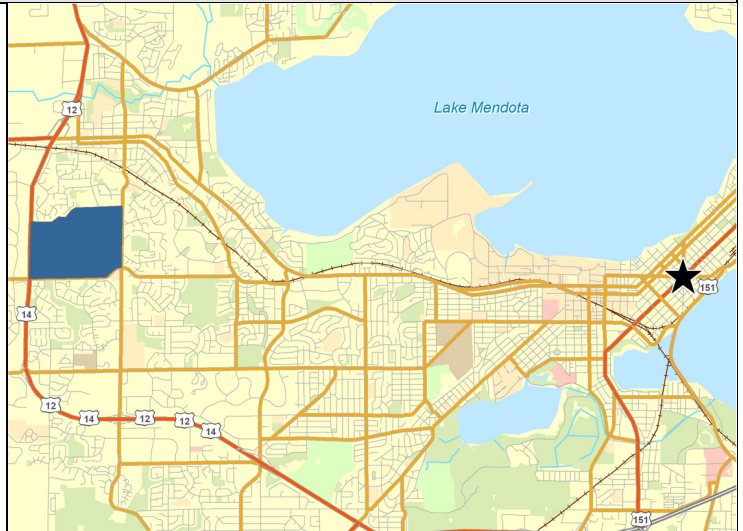

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 426 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Gompers Plan District

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 454 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Highlands Plan District

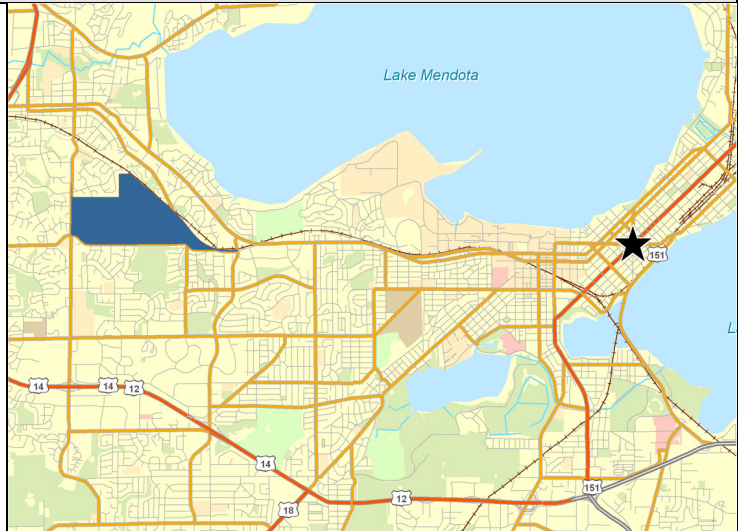

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 423 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Junction Plan District

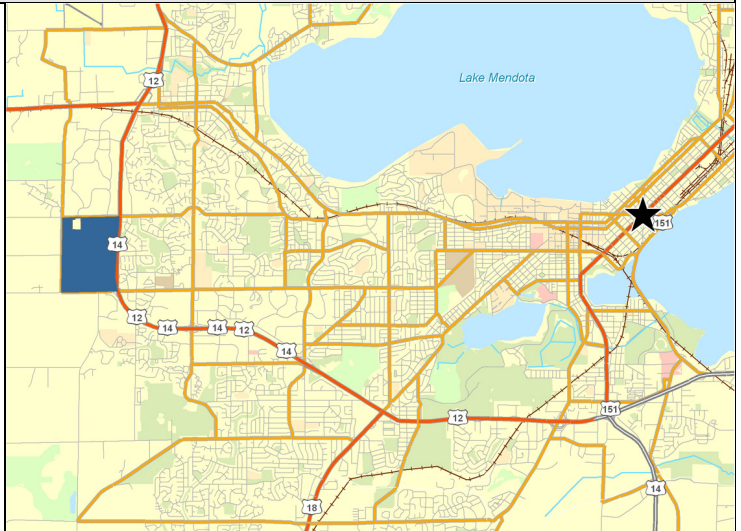

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 459 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Marquette Plan District

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 529 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Midvale Plan District

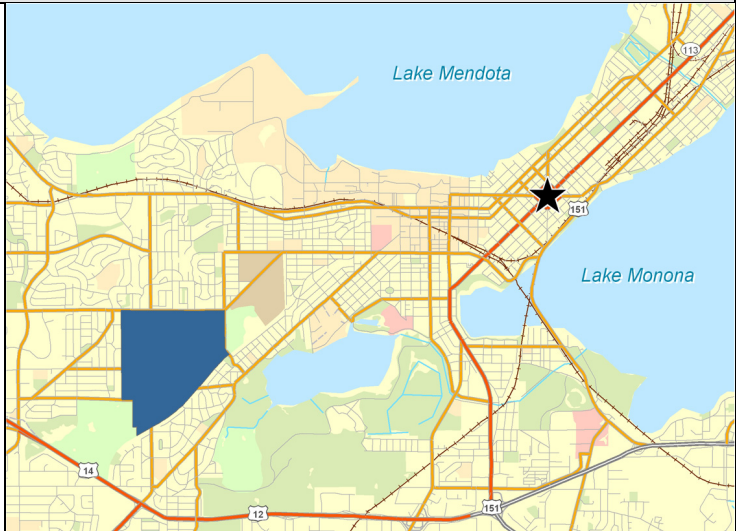

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 448 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Nakoma Plan District

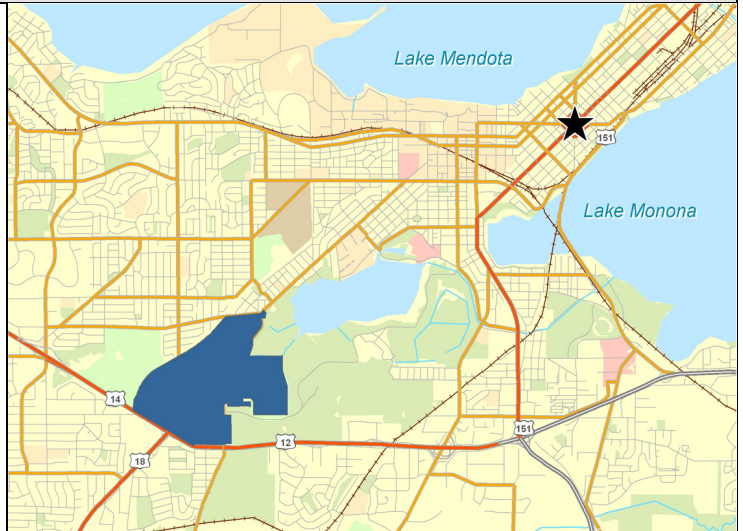

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 563 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Orchard Ridge Plan District

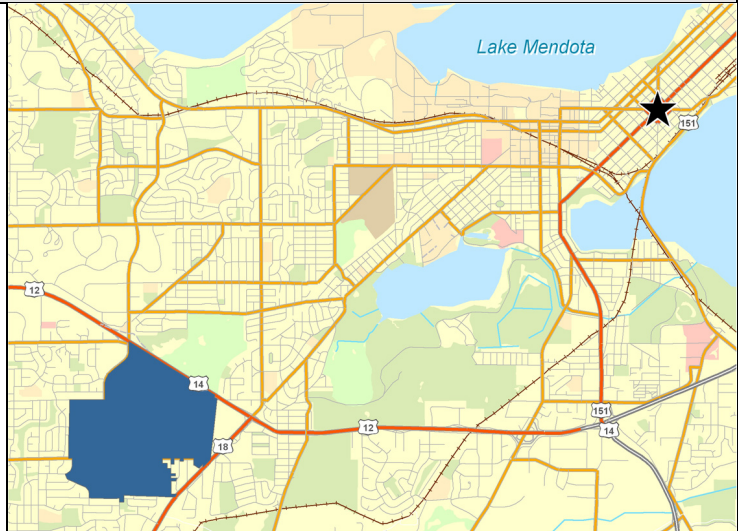

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 744 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Pumpkin Hollow Westchester Plan District

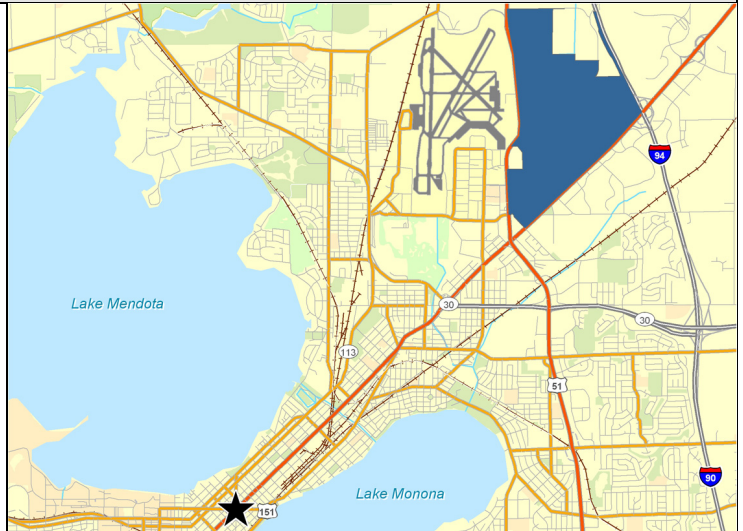

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 1,266 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Sauk Point Plan District

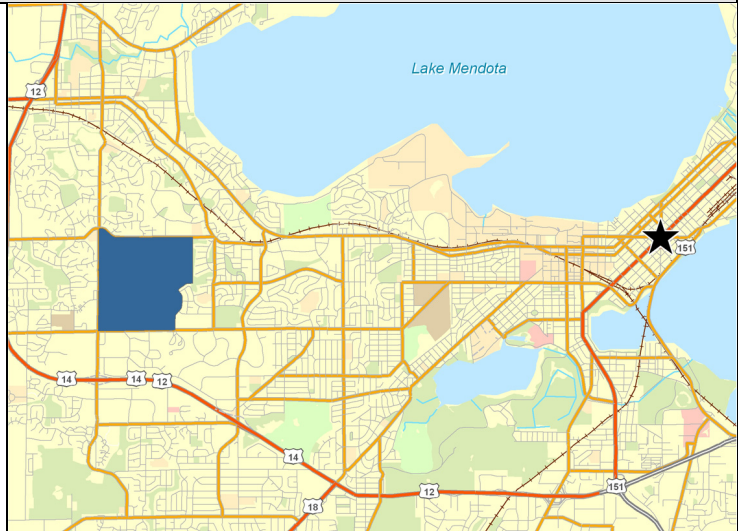

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 600 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Madison Neighborhood Indicators, 2016 Edition

South Shore Plan District

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 375 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Southeast Plan District

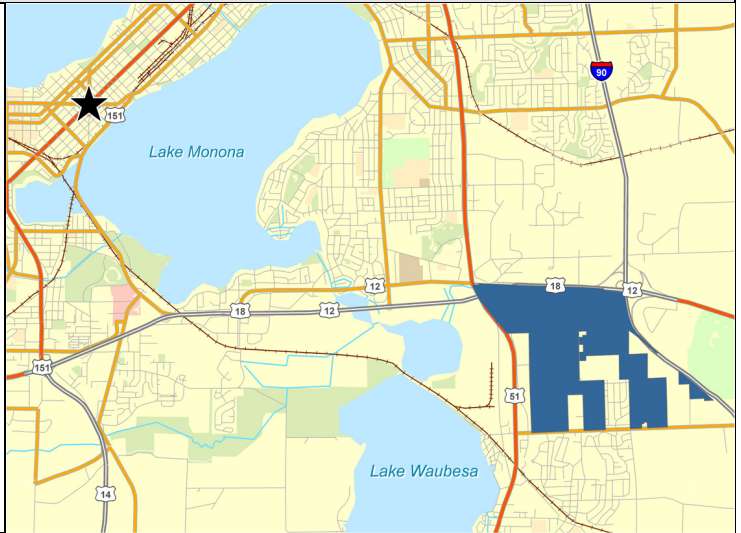

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 1,046 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Madison Neighborhood Indicators, 2016 Edition

Spring Harbor Plan District

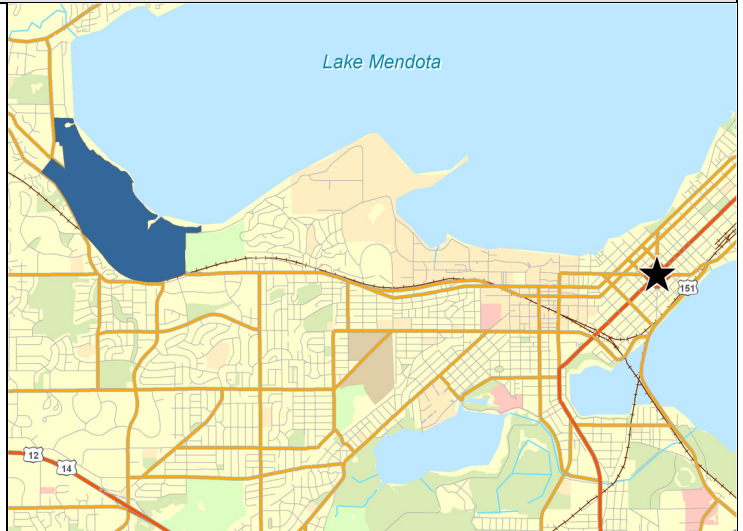

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 497 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

| | Plan District | | | | City of Madison | |

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Tenney Park Plan District

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 355 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

University Hills Plan District

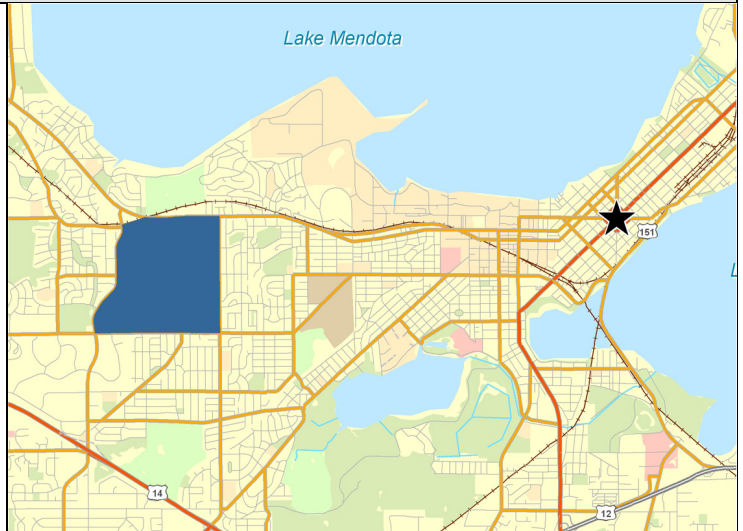

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 581 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Warner Park Plan District

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 600 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Wingra Park Plan District

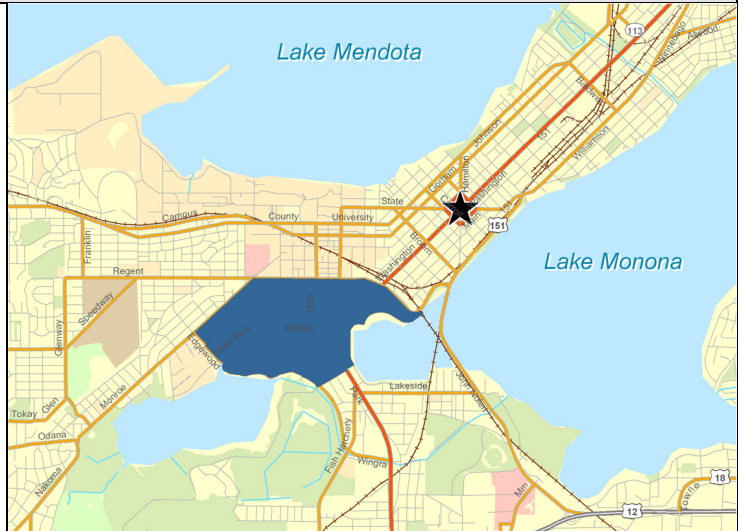

Madison Plan Districts:

Plan districts are delineated by the City of Madison Planning and Development Office. They are designed to provide data at a useful scale with full coverage of the city. Their boundaries were originally derived from census tract boundaries and they generally include portions of several neighborhoods and alder districts.

Total Area: 450 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Bay Creek Neighborhood Assn.

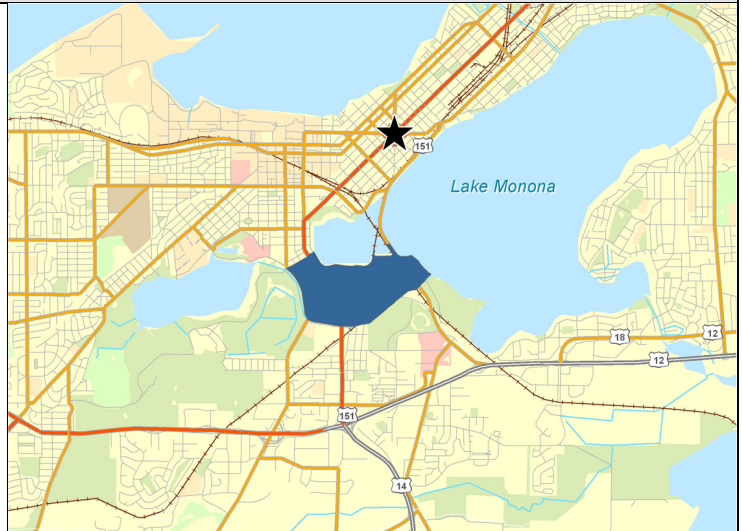

Neighborhood Organization:

Information about the Bay Creek Neighborhood Assn. can be found at:

<http://www.cityofmadison.com/neighborhoods/profile/4.html>

Aldermanic District:

The neighborhood is within district(s) 13 and is represented by Alders(s) Sara Eskrich.

Total Area: 368 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Bluff Acres Neighborhood Assn.

Neighborhood Organization:

Information about the Bluff Acres Neighborhood Assn. can be found at:

<http://www.cityofmadison.com/neighborhoods/profile/7.html>

Aldermanic District:

The neighborhood is within district(s) 17 and is represented by Alders(s) Samba Baldeh.

Total Area: 442 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Burke Heights Neighborhood Assn.

Neighborhood Organization:

Information about the Burke Heights Neighborhood Assn. can be found at:

<http://www.cityofmadison.com/neighborhoods/profile/12.html>

Aldermanic District:

The neighborhood is within district(s) 15 and is represented by Alders(s) David Ahrens.

Total Area: 238 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Capitol View Neighborhood Assn.

Neighborhood Organization:

Information about the Capitol View Neighborhood Assn. can be found at:

<http://www.cityofmadison.com/neighborhoods/profile/15.html>

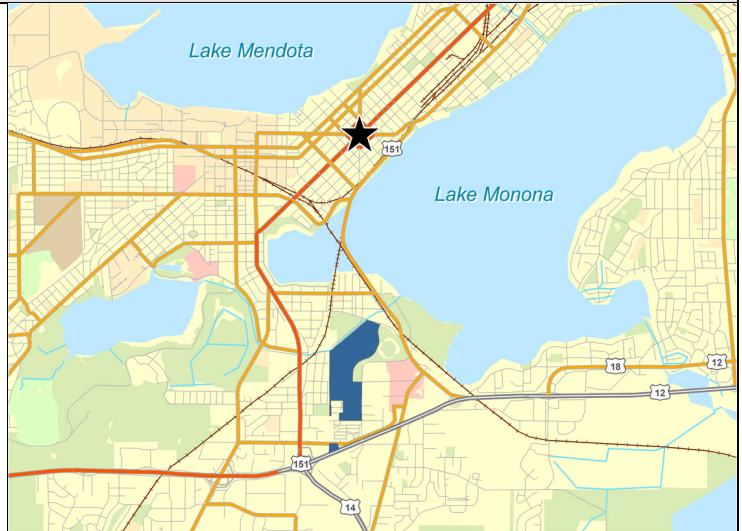

Aldermanic District:

The neighborhood is within district(s) 14 and is represented by Alders(s) Sheri Carter.

Total Area: 122 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Cherokee Park Neighborhood Assn.

Neighborhood Organization:

Information about the Cherokee Park Neighborhood Assn. can be found at:

<http://www.cityofmadison.com/neighborhoods/profile/18.html>

Aldermanic District:

The neighborhood is within district(s) 18 and is represented by Alders(s) Rebecca Kemble.

Total Area: 146 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Dunn's Marsh Neighborhood Assn.

Neighborhood Organization:

Information about the Dunn's Marsh Neighborhood Assn. can be found at:

<http://www.cityofmadison.com/neighborhoods/profile/20.html>

Aldermanic District:

The neighborhood is within district(s) 10 and is represented by Alders(s) Maurice Cheeks.

Total Area: 218 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Eken Park Neighborhood Assn.

Neighborhood Organization:

Information about the Eken Park Neighborhood Assn. can be found at:

<http://www.cityofmadison.com/neighborhoods/profile/25.html>

Aldermanic District:

The neighborhood is within district(s) 12 and is represented by Alders(s) Larry Palm.

Total Area: 227 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Faircrest Neighborhood Assn.

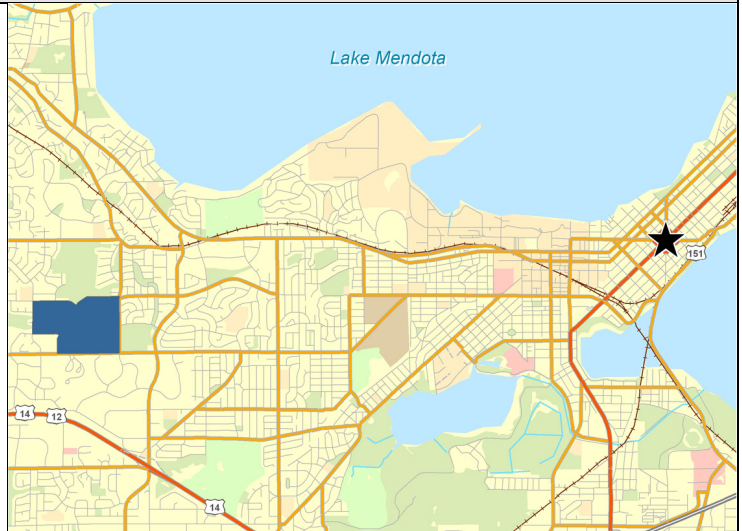

Neighborhood Organization:

Information about the Faircrest Neighborhood Assn. can be found at:

<http://www.cityofmadison.com/neighborhoods/profile/29.html>

Aldermanic District:

The neighborhood is within district(s) 11,19 and is represented by Alders(s) Tim Gruber, Mark Clear.

Total Area: 206 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Glendale Neighborhood Assn.

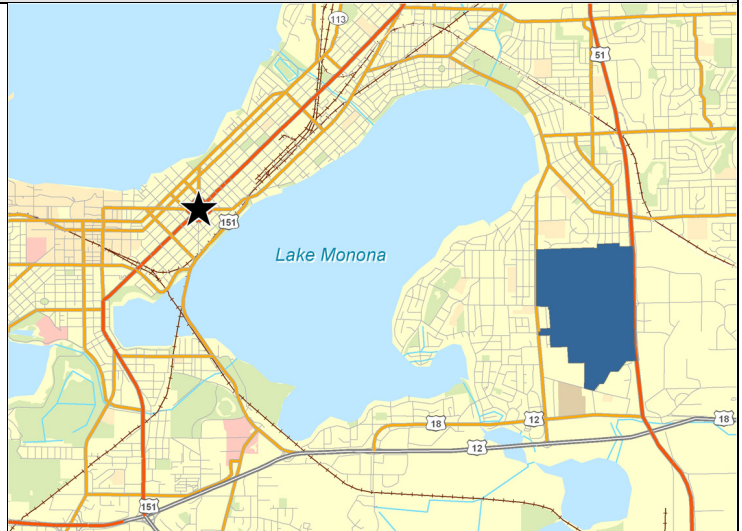

Neighborhood Organization:

Information about the Glendale Neighborhood Assn. can be found at:

<http://www.cityofmadison.com/neighborhoods/profile/31.html>

Aldermanic District:

The neighborhood is within district(s) 15,16 and is represented by Alders(s) David Ahrens, Denise DeMarb.

Total Area: 537 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Greystone

Neighborhood Organization:

Information about the Greystone can be found at:
<http://www.cityofmadison.com/neighborhoods/profile/148.html>

Aldermanic District:

The neighborhood is within district(s) 9 and is represented by
 Alders(s) Paul Skidmore.

Total Area: 36 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Hiestand Neighborhood Assn.

Neighborhood Organization:

Information about the Hiestand Neighborhood Assn. can be found at:
<http://www.cityofmadison.com/neighborhoods/profile/35.html>

Aldermanic District:

The neighborhood is within district(s) 3,15 and is represented by Alders(s) Amanda Hall, David Ahrens.

Total Area: 406 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Hill Farms, University Neighborhood Assn.

Neighborhood Organization:

Information about the Hill Farms, University Neighborhood Assn. can be found at:
<http://www.cityofmadison.com/neighborhoods/profile/38.html>

Aldermanic District:

The neighborhood is within district(s) 11 and is represented by Alders(s) Tim Gruber.

Total Area: 486 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Lake Edge Neighborhood Assn.

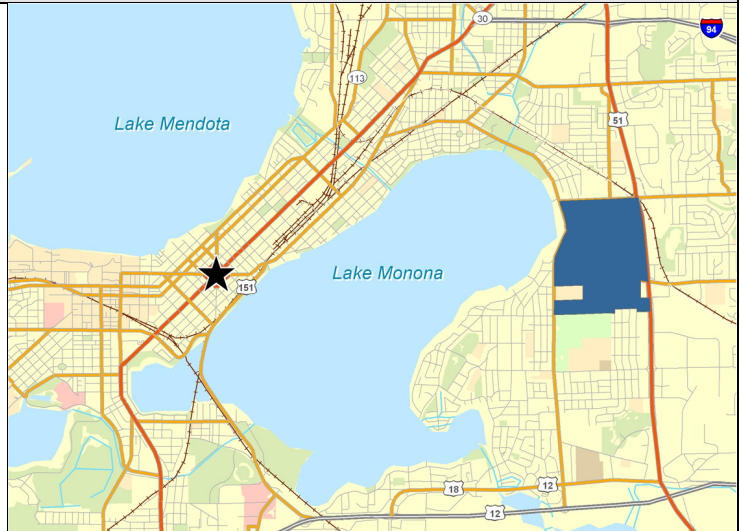

Neighborhood Organization:

Information about the Lake Edge Neighborhood Assn. can be found at:

<http://www.cityofmadison.com/neighborhoods/profile/42.html>

Aldermanic District:

The neighborhood is within district(s) 15 and is represented by Alders(s) David Ahrens.

Total Area: 458 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Lerdahl Park Neighborhood Assn.

Neighborhood Organization:

Information about the Lerdahl Park Neighborhood Assn. can be found at:
<http://www.cityofmadison.com/neighborhoods/profile/45.html>

Aldermanic District:

The neighborhood is within district(s) 12,18 and is represented by Alders(s) Larry Palm, Rebecca Kemble.

Total Area: 197 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Majestic Oaks Neighborhood Assn.

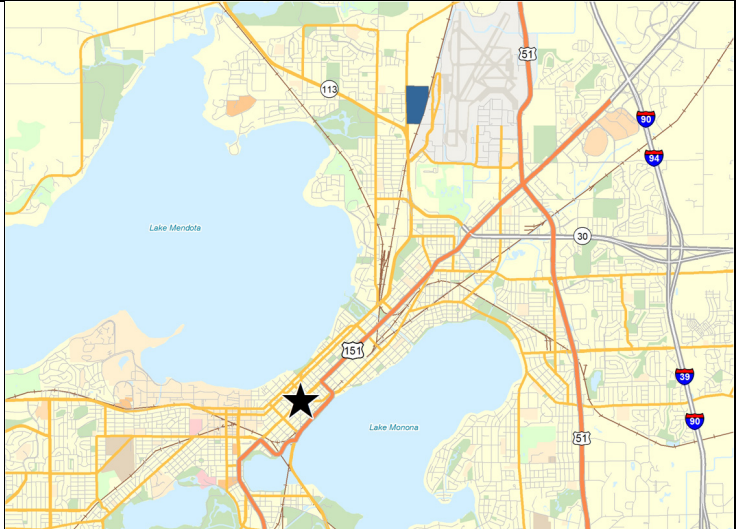

Neighborhood Organization:

Information about the Majestic Oaks Neighborhood Assn. can be found at:

<http://www.cityofmadison.com/neighborhoods/profile/153.html>

Aldermanic District:

The neighborhood is within district(s) 12 and is represented by Alders(s) Larry Palm.

Total Area: 83 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Marquette Neighborhood Assn.

Neighborhood Organization:

Information about the Marquette Neighborhood Assn. can be found at:

<http://www.cityofmadison.com/neighborhoods/profile/49.html>

Aldermanic District:

The neighborhood is within district(s) 6 and is represented by Alders(s) Marsha Rummel.

Total Area: 453 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Meadowood Neighborhood Assn.

Neighborhood Organization:

Information about the Meadowood Neighborhood Assn. can be found at:

<http://www.cityofmadison.com/neighborhoods/profile/50.html>

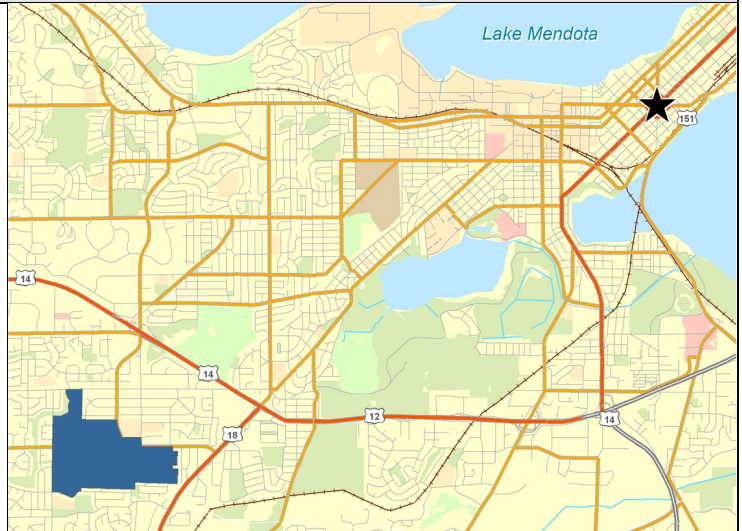

Aldermanic District:

The neighborhood is within district(s) 10,20 and is represented by Alders(s) Maurice Cheeks, Matt Phair.

Total Area: 374 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Monona Bay Neighborhood Assn.

Neighborhood Organization:

Information about the Monona Bay Neighborhood Assn. can be found at:
<http://www.cityofmadison.com/neighborhoods/profile/152.html>

Aldermanic District:

The neighborhood is within district(s) 13 and is represented by Alders(s) Sara Eskrich.

Total Area: 85 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

North Lake Mendota Neighborhood Assn.

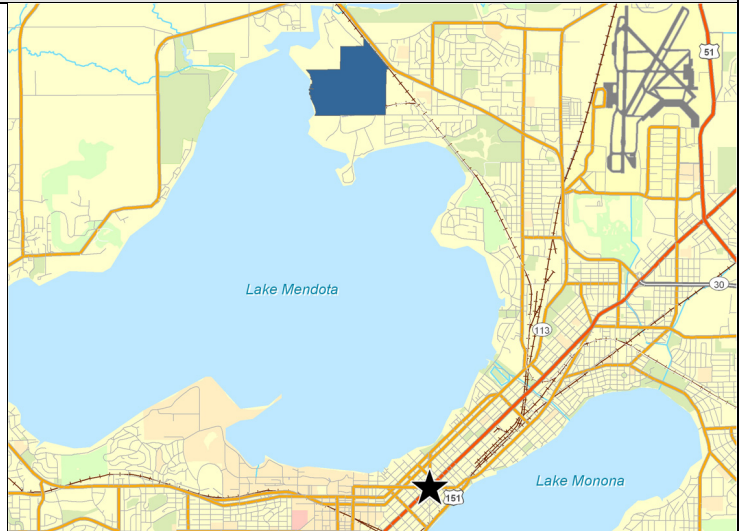

Neighborhood Organization:

Information about the North Lake Mendota Neighborhood Assn. can be found at:

<http://www.cityofmadison.com/neighborhoods/profile/59.html>

Aldermanic District:

The neighborhood is within district(s) 18 and is represented by Alders(s) Rebecca Kemble.

Total Area: 332 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Orchard Ridge Neighborhood Assn.

Neighborhood Organization:

Information about the Orchard Ridge Neighborhood Assn. can be found at:

<http://www.cityofmadison.com/neighborhoods/profile/65.html>

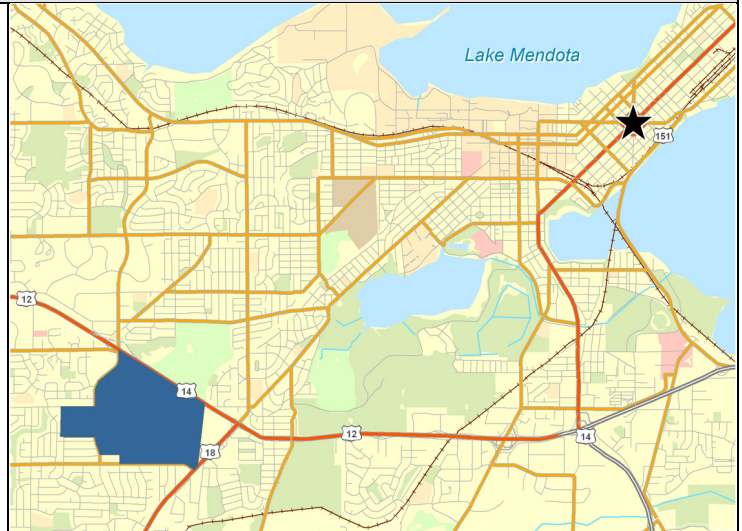

Aldermanic District:

The neighborhood is within district(s) 10 and is represented by Alders(s) Maurice Cheeks.

Total Area: 562 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Regent Neighborhood Assn.

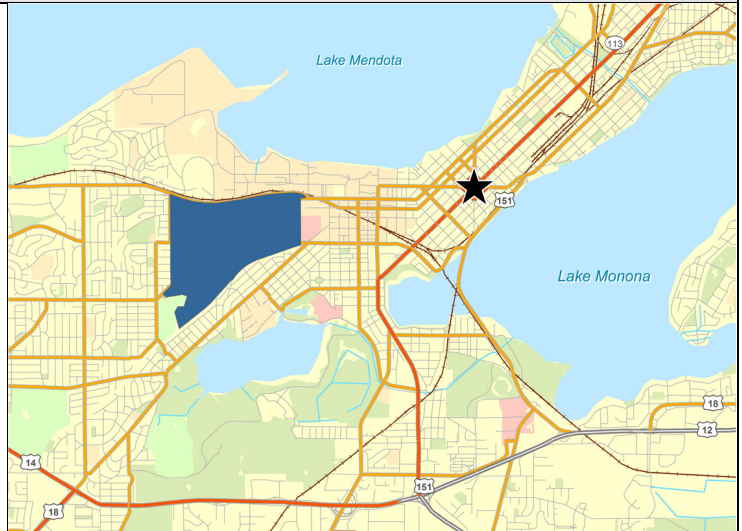

Neighborhood Organization:

Information about the Regent Neighborhood Assn. can be found at:

<http://www.cityofmadison.com/neighborhoods/profile/71.html>

Aldermanic District:

The neighborhood is within district(s) 5,13 and is represented by Alders(s) Shiva Bidar-Sielaff, Sara Eskrich.

Total Area: 520 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Rocky Bluff Neighborhood Assn.

Neighborhood Organization:

Information about the Rocky Bluff Neighborhood Assn. can be found at:
<http://www.cityofmadison.com/neighborhoods/profile/157.html>

Aldermanic District:

The neighborhood is within district(s) 5,11 and is represented by Alders(s) Shiva Bidar-Sielaff, Tim Gruber.

Total Area: 89 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Schenk-Atwood-Starkweather-Yahara Neighborhood Assn.

Neighborhood Organization:

Information about the Schenk-Atwood-Starkweather-Yahara Neighborhood Assn. can be found at:
<http://www.cityofmadison.com/neighborhoods/profile/114.html>

Aldermanic District:

The neighborhood is within district(s) 6 and is represented by Alders(s) Marsha Rummel.

Total Area: 570 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Sherman Neighborhood Assn.

Neighborhood Organization:

Information about the Sherman Neighborhood Assn. can be found at:
<http://www.cityofmadison.com/neighborhoods/profile/81.html>

Aldermanic District:

The neighborhood is within district(s) 12 and is represented by Alders(s) Larry Palm.

Total Area: 410 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Sprecher East Neighborhood Assn.

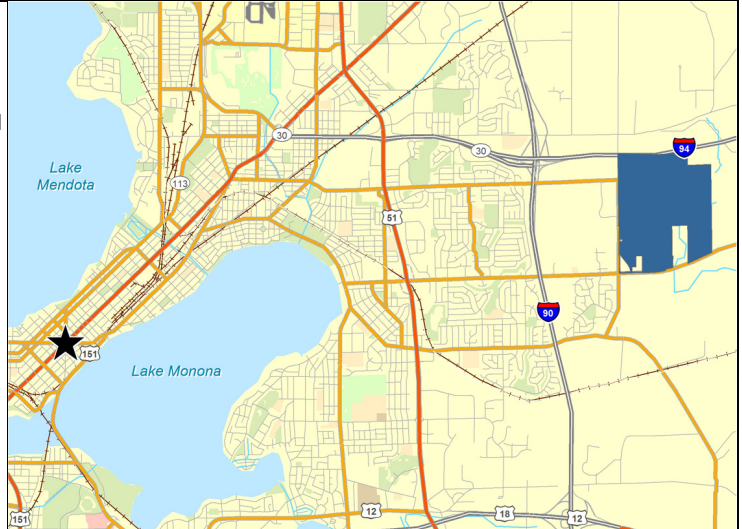

Neighborhood Organization:

Information about the Sprecher East Neighborhood Assn. can be found at:

<http://www.cityofmadison.com/neighborhoods/profile/146.html>

Aldermanic District:

The neighborhood is within district(s) 3 and is represented by Alders(s) Amanda Hall.

Total Area: 718 Acres

Boundary change from previous year: Yes

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Stone Meadows Neighborhood Assn.

Neighborhood Organization:

Information about the Stone Meadows Neighborhood Assn. can be found at:
<http://www.cityofmadison.com/neighborhoods/profile/115.html>

Aldermanic District:

The neighborhood is within district(s) 7 and is represented by Alders(s) Steve King.

Total Area: 353 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Sunset Village Neighborhood Assn.

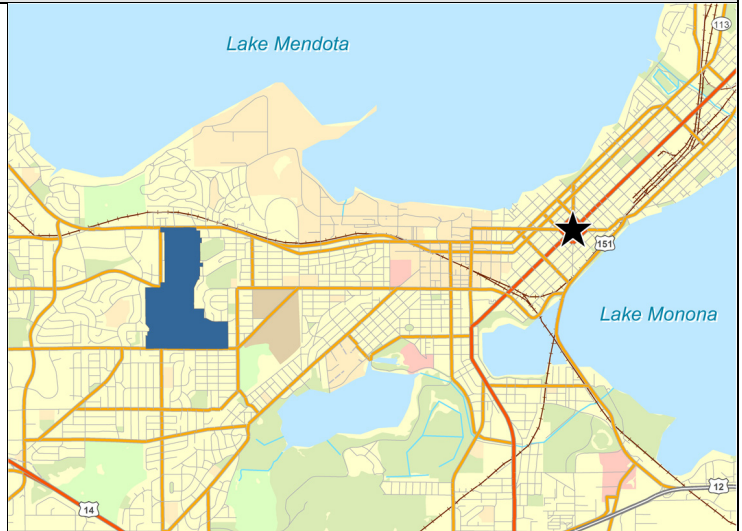

Neighborhood Organization:

Information about the Sunset Village Neighborhood Assn. can be found at:

<http://www.cityofmadison.com/neighborhoods/profile/90.html>

Aldermanic District:

The neighborhood is within district(s) 5,11 and is represented by Alders(s) Shiva Bidar-Sielaff, Tim Gruber.

Total Area: 266 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Truax Neighborhood Assn.

Neighborhood Organization:

Information about the Truax Neighborhood Assn. can be found at:

<http://www.cityofmadison.com/neighborhoods/profile/95.html>

Aldermanic District:

The neighborhood is within district(s) 15 and is represented by Alders(s) David Ahrens.

Total Area: 22 Acres

Boundary change from previous year: NA

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Vilas Neighborhood Assn.

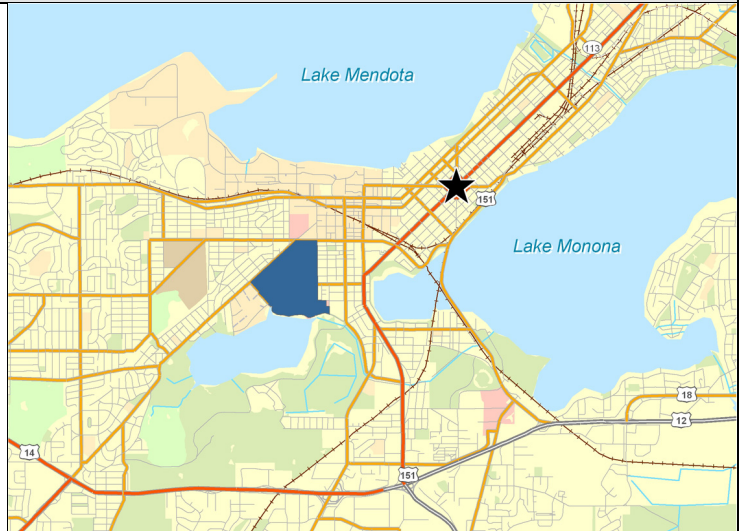

Neighborhood Organization:

Information about the Vilas Neighborhood Assn. can be found at:

<http://www.cityofmadison.com/neighborhoods/profile/97.html>

Aldermanic District:

The neighborhood is within district(s) 13 and is represented by Alders(s) Sara Eskrich.

Total Area: 195 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Westchester Gardens Neighborhood Assn.

Neighborhood Organization:

Information about the Westchester Gardens Neighborhood Assn. can be found at:
<http://www.cityofmadison.com/neighborhoods/profile/72.html>

Aldermanic District:

The neighborhood is within district(s) 17 and is represented by Alders(s) Samba Baldeh.

Total Area: 522 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Wexford Ridge Neighborhood

Neighborhood Organization:

Information about the Wexford Ridge Neighborhood can be found at:

<http://www.cityofmadison.com/neighborhoods/profile/104.html>

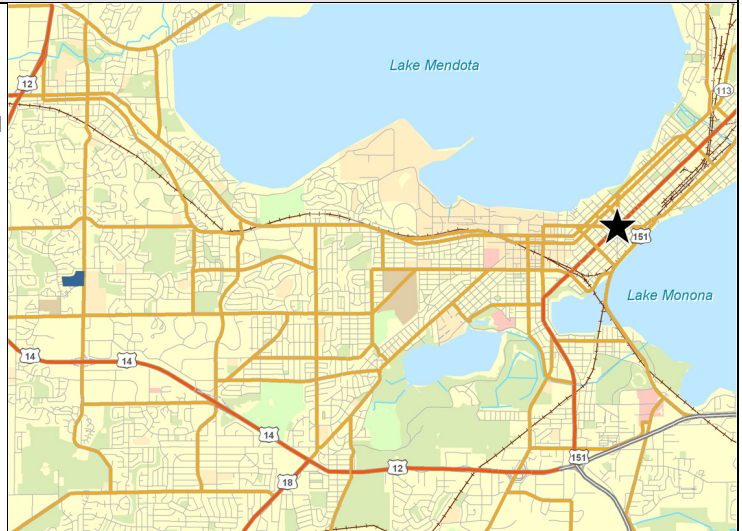

Aldermanic District:

The neighborhood is within district(s) 9 and is represented by Alders(s) Paul Skidmore.

Total Area: 21 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.

Madison Neighborhood Indicators, 2016 Edition

Wisconsin Co-op Housing Assn.

Neighborhood Organization:

Information about the Wisconsin Co-op Housing Assn. can be found at:

<http://www.cityofmadison.com/neighborhoods/profile/107.html>

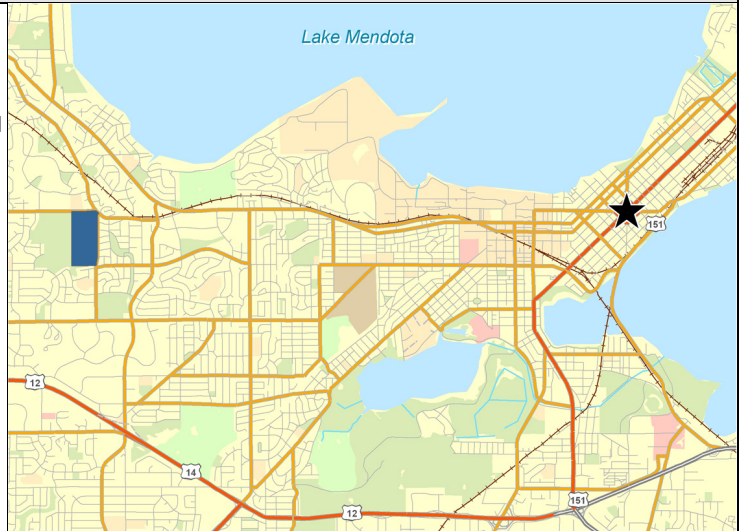

Aldermanic District:

The neighborhood is within district(s) 11 and is represented by Alders(s) Tim Gruber.

Total Area: 74 Acres

Boundary change from previous year: No

Note: Any areas of a neighborhood boundary that lie outside the City of Madison are not included in the map or the table below.

The Madison Neighborhood Indicators project seeks to quantify the diverse and changing social conditions in Madison neighborhoods. The project staff has endeavored to provide up to date measures each year, bringing together data from a variety of sources and compiling them into a suite of variables used to generate neighborhood level profile reports.

To provide a demographic context to the year-to-year indicator data, a population profile sourced from U.S. decennial censuses of 2000 and 2010 is shown directly below. The annually updated indicators are shown on page two of the profile. Definitions for Census and 2016 edition indicator items can be found on pages three through six.

Notes:

Time series data: In some instances year-to-year variation in counts and rates will reflect changes in the variable definition, geocoding success, or neighborhood boundaries. Data definitions for previous years can be found here: <http://madison.apl.wisc.edu/definitions.php>

1: Student and parent education data are from the Madison Metropolitan School District and show figures for MMSD students or students' households as available; in some instances these represent only a subset of the MMSD student population. See definitions for details.

2: Current year data source and/or tabulation method differ(s) from previous year. See definitions for details.

3: Multi-year estimate. See definitions for details.

n/a: Value is not applicable or not available for the reference year.

spr*: Value has been suppressed to protect confidentiality. This occurs when there is a count of five or fewer in the category shown or five or fewer in the counterpart of the category shown, the latter being derivable from the percentage. Correspondence between some neighborhood associations and plan district geographies required suppression of these data for neighborhood geographies.
